Patricia Neurohr
At Home with Ease
[REDACTED]

Patty,

I wanted to thank you for your professional care and assistance in helping me with the downsizing and organizing of my attic. Opening that attic door was very overwhelming and it was comforting to have someone helping me with this project not to mention move all of the boxes out to a space where we could go through each one with ease. It was a pleasure working with you and I appreciated all your tips for preserving my important memorabilia in a way that allowed me to discard many of the items yet keep important items to pass to my children.

I appreciate that we were able to complete the attic project in one weekend and that you were able to remove and distribute the two truckloads of donated items immediately. Now the only things left in my attic are (well organized) decoration for the holidays, some items to go to the children and some other important items that I will need once I move to my new place. I am pleased that I will not have to pay for an extra storage unit once I move to a smaller home. Everything will fit in my new storage space.

The attic was a big step in the process of downsizing and I am eager to start the next project, the basement! At Home with Ease has really helped me to stay focused, one step at a time and not get overwhelmed.

I am looking forward to working on the rest of my downsizing project with the At Home with Ease move management team.

Very Sincerely

Margaret
